*WARNING: Reagents marked with an * are considered to be potential health hazards. To view or print a Material Safety Data Sheet (MSDS) for these reagents go to www.lamotte.com. To obtain a printed copy, contact LaMotte by e-mail, phone or fax.

To order individual reagents or test kit components, use the specified code number.

NOTE: Do not use for tapwater or less than 20 ppm peracetic acid.

CONCENTRATION OF PERACETIC ACID

1. Fill test tube (0715) to 10 mL line with sample water.
2. Add 10 drops of *Sulfuric Acid, 1:1 (6141WT). Swirl to mix. Make sure solution is thoroughly mixed.
3. Add 1 drop of Ferroin Indicator (6410). Swirl to mix. Make sure solution is thoroughly mixed.
4. Add 1 drop of *Potassium Iodide 20% Solution (6521). Swirl to mix. Make sure solution is thoroughly mixed. Solution will turn a cloudy brown if peracetic acid is present.
5. While gently swirling tube, add Peracetic Acid Titrant (S-6155), one drop at a time until brown color changes to a clear, pale orange-pink which persists for 20 seconds. Make sure solution is thoroughly mixed. Count the number of drops added.
6. Multiply the number of drops used in Step 5 by 15 (fifteen). Record as ppm Peracetic Acid.
For example:
10 drops x 15 = 150 ppm Peracetic Acid

**NOTE:** For low concentrations of peracetic acid (20 - 90 ppm) fill the test tube to the 25 mL line. Follow the test procedure and use 25 drops of *Sulfuric Acid, 1:1 (6141WT), 3 drops of Ferroin Indicator (6410) and 3 drops of *Potassium Iodide 20% Solution (6521). In Step 6 multiply the number of drops used by 6 (six). Record as ppm Peracetic Acid.

For example:
10 drops x 6 = 60 ppm Peracetic Acid

For high concentrations of peracetic acid (300 - 5000 ppm) use the 0.5 mL pipet (0353) to add 0.5 mL of the sample to the test tube (0715). Fill the tube to the 10 mL line with hydrogen peroxide/peracetic acid-free water. Follow Steps 2 - 5. In Step 6 multiply the number of drops used by 300 (three hundred). Record as ppm Peracetic Acid.

For example:
10 drops X 300 = 3000 ppm Peracetic Acid
